## My choices

If you need some help, ask your teacher. She or he will show you pictures of northern animals, tools, seasons and activities. You can also conduct some searches on the Web or in a book to get more inspiration.

1) I choose an animal from the North. (Examples: caribou, seal, walrus, beluga, lemming, goose, ptarmigan, wolf, fox, arctic hare, trout, etc.)
2) I choose a principal character and I describe it. (Example: a grandmother. A flowered scarf covers her grey hair. Her back is bent and she walks slowly. She cannot see well and does not talk often, but she is nice and generous). I can write short sentences like in the example or I can make a list of characteristics using adjectives.
3- I choose two secondary characters and I attribute a few characteristics to them using adjectives.
4- I choose an object. (Examples: a doll, a piece of clothing, a knife, a lamp, a harpoon, etc.)
5- I choose a season.
6- I choose a principal action around which I will create my story. (Examples: hunting, fishing, building an igloo or setting up a tent, playing, eating, hiding or stealing something, swimming, sliding, etc.)
